

About Inside Rx

Inside Rx, LLC, is powered by its parent company, Express Scripts, the nation's leading independent pharmacy benefit manager. As a fully owned subsidiary, Inside Rx applies Express Scripts' purchasing power to expand affordable access to brand and generic medications for patients in need. The company's mission is to deliver significant savings for the uninsured and those who experience high out-of-pocket costs for prescription medications. Consumers who use Inside Rx can access one of 60,000 pharmacies throughout the United States and Puerto Rico, including CVS, the Kroger Family of Pharmacies and Walgreens. There are no membership fees or costs to obtain savings. Visit www.insiderx.com to learn more.

The discount card program provides transparent and affordable access to most prescribed brand and generic medications. However, Inside Rx offers consumers unique value in that it is the first prescription savings program that works with multiple pharmaceutical manufacturers to apply rebates at the point of sale for almost 300 brand medications. As a result, consumers using Inside Rx can save an average of 70% on brands and generic medication.*

**Average savings based on usage and Inside Rx data as compared to cash prices; average savings for all generics are 78%; 37% for select brand medications; restrictions apply.*

Core Product Offering

Our core product is a discount prescription drug card designed to deliver significant savings for the uninsured and those who experience high out-of-pocket costs for prescription medications. Our vision is to make obtaining discounts on prescription drugs easy and affordable for consumers who pay out of pocket.

Covered Prescription Drugs

The discount card program provides affordable access to most brand and generic medications. However, Inside Rx offers consumers unique value in that it is the first prescription savings program that works with multiple pharmaceutical manufacturers to apply rebates at the point of sale for almost 300 brand medications. Consumers using Inside Rx can save an average of 37% on featured brands and as much as 78% on generics.

Excluded drugs are compounds, repackaged drugs, and vaccines and over the counter products without a prescription.

Pharmacy Network

Consumers who use Inside Rx can access one of 60,000 pharmacies throughout the United States and Puerto Rico, including CVS, the Kroger Family of Pharmacies, Walgreens and many independent pharmacies. There are no membership fees or costs to obtain savings. The Inside Rx program also supports home delivery through the Express Scripts Pharmacy.

The program is easily accessible via our website at [Inside Rx.com](http://InsideRx.com), which enables the ability to download electronic versions of the prescription drug cards without registration. Consumers can download an Inside Rx card instantly, request a text or email with a card, download the Inside Rx mobile app or print out a card to take to the pharmacy with their prescription. Additionally, Inside Rx provides English and Spanish language versions of its website and discount cards and materials.

Eligibility

The program is available to consumers who are uninsured or underinsured. The Inside Rx card is not insurance and it cannot be combined with insurance, copay cards, or any other secondary payer. Please note that there are some usage restrictions. If a consumer is covered by state or federally funded benefit plans (such as Medicare, Medicaid or Tricare), the consumer is not able to purchase feature priced brand medications, even if the consumer elects to process the prescription outside of the benefit as an uninsured (cash-paying) patient.

This information regarding eligibility restrictions is described on our website and in written materials shared with consumers.

Other Products and/or Services

As a result of market changes and growing demand for savings on prescription drug discounts for every family member, Inside Rx also offers a separate discount card program for pets. Consumers with pets can access discounts on a wide variety of prescribed human medications used by pets. Pet owners can save an average of 15% on brand medications and an average of 75% on generic medications. These discounts are based on savings for over 50% of customers that use the Inside Rx Pets card, comparing the price paid versus the cash price of the medication. Actual savings will vary. Consumers can look up the current price of their pet's medication at www.insiderx.com/pets or call our toll-free number.

Customer/Beneficiary Services

Inside Rx provides dedicated customer service 7 days a week, 8:00 a.m. – 9:00 p.m., EST. Additionally, consumers can request assistance via email.
